Your brand, on your customers' phones. Every day.

Screen Pals gives your customers a friendly 3D pal in your brand. It lives on their phone and cares for them, so they think of you every day. No ads, just care from you.

What your business gets

Your mascot as a pal

Our pal in your colours and logo, your own mascot in 3D, or a new character made for you.

A virtual town and kitchen

While they wait, customers drive their order home through a 3D town, or bake it in a 3D model of your kitchen.

See how it's going

How many customers joined and how many use your pal each week. Counts only, never personal data.

Seen every day, never ignored

Your pal reminds customers to drink water, eat on time and rest. People keep things that care for them.

Pal Coins rewards

Customers earn coins for healthy habits and swap them for a reward at your counter. They come back.

Simple and safe

No ads on your customers' phones. A written agreement covers everything.

How to start, in three steps

1. **Send us your logo**
   Or your mascot, or your idea.
2. **Approve your pal**
   We redraw it until you love it.
3. **Put out your QR card**
   At the counter, on bills, on WhatsApp.

screenpals.shop/business

Great for shops, cafés, restaurants, gyms, schools, clinics and brands.

Screen Pals

FOR EVERYONE

A gentle reminder from someone who loves you.

Turn a photo of your mum, your dad, your child or your pet into a small 3D pal that lives on your phone and looks after you, the way they would.

What Screen Pals does for you

Your loved one, as a pal
Pick a photo. We draw them as a cute 3D pal with their own animations.

Drink water on time
Your pal reminds you through the day, and cheers when you drink.

Meals on time
Breakfast, lunch and dinner reminders, so you never skip a meal.

Walk more
A walking ring counts your steps and celebrates your goal.

Know your social media time
See how much time goes on reels and short videos. Your pal gets sad when it's too much, and happy when you put the phone down.

Fun together
Tic-tac-toe, cricket and football with your pal, dances, and a weekly report of your week.

Start in three steps

1. **Install the app**
From Google Play.

2. **Pick your pal**
Buddy, Joey, Clover, or a photo of someone you love.

3. **Set your goals**
Water, meals and steps. Your pal does the rest.

Private by design

Your screen time, steps and pals stay on your phone. Your photos are never stored on our server. No ads, no tracking.
